

*Doing the right thing by your  
valued workers, your plants  
and your business*

**2 Year Warranty and Support**

**The GreenElf® Applicator**  
***For Herbicides and Fine Grain Materials***  
***Control - Without Undesirable Impacts***

**Series ECO-301**  
**Hand-Held & Automation models**

⇒ **Accurate Dosing**

- Smallest Dose as low as 0.11g, suitable for small pots. Largest dose as high as 3.5 grams, with easy multiple triggering for larger coverage
- 150 electronic settings between lowest and highest Dose
- Eliminate Material Wastage and reduce costs.

⇒ **Fast**

- Light touch trigger
- Fast manual firing
- Pace Firing™ mode
- Superior Ergonomics for comfortable continuous operation.
- Gets the job of individual plant care done just that much faster.

⇒ **Material Isolation**

- Greatly reduces material exposure by your workers to chemical contact and smells
- Less complaints by workers !

⇒ **Improved Coverage**

- Spreads Herbicide over surface of container soil surface
- Optional use of angled nozzle attachment.

⇒ **Best Practice**

- Compared to other methods reduces chemical run-off for less impact on local environment
- Improves OH&S Standards for both worker posture and material handling

Can you afford *not* to give your  
valued employees the best ?
